

SERVICE OFFER

# SUPPORT & MAINTENANCE

Versasec offers Support & Maintenance (S&M) services through the Versasec Support Portal, which gives access to:

- extensive FAQ's,
- technical documentation,
- step-by-step guides and videos,
- and direct access to Versasec Support Team through digital capabilities (email, chat, call, and schedule a meeting).

Versasec support professionals are rated with high honors by our customers. As result, Versasec experiences the highest customer renewal rates in the industry.

Premium Support was designed for convenience: reducing waiting time, and empowering customers to choose their preferred support type.

Customers can sign up for S&M with a professional or premium plan at any time during their subscription lifetime of vSEC:CMS. vSEC:CLOUD customers enjoy Premium Support included in their subscription. For more information, visit [Versasec.com/support](https://Versasec.com/support).

For Support service hours, please refer to the Support & Maintenance Service Offer contract.
